Profile

Front-end developer with five years of experience building **coveo.com**, the corporate website of an AI company, as part of its marketing team. I ship landing pages and content-driven UI with designers and marketers, own the site's design system, and make the CMS easy for content editors to use. I use AI coding tools daily — Kiro, Claude, GitHub Copilot — and take ownership of every line I merge.

Skills

Front-end	JavaScript (ES6+), Vue.js, HTML5, CSS3 / SCSS, Bootstrap, responsive UI
CMS & platform	Sitecore (content models, editor workflows), familiar with C#
AI tooling	Kiro, Claude, GitHub Copilot
Quality & performance	Cypress, Vitest, Core Web Vitals, debugging
Design & tracking	Figma, design systems, Google Tag Manager, SEO
Ways of working	Agile / Scrum, Jira, Git

Experience

Front-End Developer *at Coveo*

MAY 2021 — PRESENT

Marketing team · coveo.com · Montréal, QC

- Own the front end of coveo.com — HTML, SCSS, JavaScript and Vue.js on Sitecore.
- Ship landing pages, campaign features and content-driven UI in collaboration with the marketing and design teams.
- Led the implementation of a new, scalable design system for the site.
- Improve publishing workflows and train content editors so the marketing team can publish updates without developer help.
- Optimize performance, fix cross-browser issues and debug regressions.
- Write end-to-end and unit tests (Cypress, Vitest); manage tracking in Google Tag Manager.

Webmaster *at CRISM*

SEP 2020 — FEB 2021

crism.ca · Montréal, QC

- Maintained site content and navigation and improved the overall browsing experience.
- Applied SEO best practices to improve search visibility.
